Shelter Drill ⇒ to Reunification Plan

Summaries

# Overview

- Depending on the specific emergency/scenario, an announcement will be made to report to Shelter Drill Locations
- Students are escorted to assigned locations where they are quietly assembled and accounted for while emergency is addressed
- After assessment, students are safe for dismissal
- Reunification Plan is activated

# Shelter Drill Locations

- Upon arrival to shelter location, attendance is reported and students are safely assembled for “long term” supervision
- Attendance reporters will request absences to be reported
- It is **CRITICAL** that students are prepared to wait calmly and quietly for the duration of the emergency

# Reunification Plan

- We can transition to our Reunification Plan if decision is made to dismiss students, and/or parents are beginning to arrive
- The perimeter exits have designated labels for parents to **request** a student, and then the student is **released** to the parent/guardian
- “Runners” from the Request Gate location will bring requests to Shelter Drill locations to request a student for dismissal
